Polycom® CX100 Speaker phone Optimized for Microsoft® Lync®

High-quality, hands-free calls from your computer

Polycom® CX100 speaker phone gives you the ultimate hands-free calling experience from your Microsoft® Lync®-enabled computer. Polycom CX100 speaker phone enables crystal-clear, natural conversations without echoes or feedback. Enjoy the freedom of not wearing your headset for hands-free calls, or plug into the built-in stereo headphone port for private conversations.

Polycom CX100 speaker phone delivers remarkable wideband audio quality that enables seamless voice and video communications with no compromises. Two high-quality microphones provide excellent range for small group conversations.

Polycom CX100 speaker phone connects and powers through an integrated USB cable for easy installation and use—no extra cables to carry or batteries to charge. Its small size and carrying case make it easy to take with you. Plus, the high-fidelity speaker doubles as a great portable solution for CD-quality music and presentation audio.

The integrated button controls allow you to pick up or hang up calls, adjust speaker volume up and down, and mute the Polycom CX100's microphones during a call without using your mouse. LED indicators on the Polycom CX100 speaker phone display various call states like incoming call, call muted, active call, and voicemail waiting for user.

Don't settle for imitators: Only the Polycom CX100 speaker phone delivers a hands-free, computer calling experience that features:

- Remarkable voice quality
- Two high-quality microphones
- Integration with echo cancellation and other audio capabilities
- Integrated button controls for a seamless user experience
